

# JASON RINGENBERG RHINESTONED

## WHAT THE MEDIA IS SAYING...

"Ringenberg shines on **Rhinstoned** with his canny songwriting, his propulsive and bright guitar work, and his raw vocals. He's an expert at going straight to our hearts with a lyric wrapped in a tune so danceable that the words linger long after the song's finished." — **No Depression**

"**Rhinstoned**, trades the carefree energy of his youth for more meaningful subjects, like the Freedom Riders of the Civil Rights movement or an old Lakota legend about a cousin of Crazy Horse, or even a repurposed hymn celebrating his own faith through the years." — **PASTE**

"possesses a ready wit and an insightful attitude that's made each of his offerings well worth attaining." — **American Songwriter**

"his songwriting and presence still burn bright" — **Glide**

"...continues to solidify his stature as one of the great American song chroniclers, an artist capable of constantly being able to expand his sound and look forward while he simultaneously honors those who came before him. By so doing, Ringenberg sets an example for all of us to follow."

— **Americana Highways**

"...a worthy testament to both his creativity and conviction." — **Goldmine**

"There are performers who obey the rules and force their muse into specific genres of music, touch a common nerve and sell millions of records. Then, there are country outlaws who break the rules and appeal to those who secretly wish they could be outlaws just like their musical heroes. But there are a select few who refuse to acknowledge there are rules at all. These artists are truly free. They spend their lives creating music that plays their soul like a harp from heaven, and if that connects to a select number of fans, they're truly at home in their spirit. Jason Ringenberg is one of those musicians."

— **American Blues Scene**

"Jason Ringenberg kicks all around the Roots world, from edgy Folk with a historical bent to the best of dancefloor cutting Cow Punk." — **The Alternate Root**

"Ringenberg stays true to himself through every song, which makes for an album that is a real tour de force of this artist's songwriting. '**Rhinstoned**' is proof that the cowpunk legend is showing no sign of slowing down — fantastically written songs, expertly arranged and all performed with Jason Ringenberg's signature swagger." — **Americana UK**
